**FOOTBALL COACH • FLAG FOOTBALL MAVEN • ENTREPRENEUR**

*"Ever since I was 8 years old, I've had a natural attraction to football. The love of the game was passed down to me from my dad, grandma, and uncle. From playing to coaching to co-founding a competitive club, football has always been a part of my life. I'm grateful that I now get to help the next generation get better at the game, while also learning life skills to succeed in life. I also get to play a pivotal part in promoting flag football across the country, which means a lot to me."*

*"This is a big opportunity for the young ladies getting a chance to play flag football at the high school level. The sport's growing all over the world and I'm definitely hoping that it leads to that platform for them...we see it on the NFL level...this is definitely bringing more exposure to the sport of football. This is bringing it more to the forefront and I think it's gonna catch on even more, especially in the state of North Carolina."*
